

ENVIRONMENTAL CONSULTANTS ERRORS & OMISSIONS PROGRAMME

Environmental Consultants ought to be insured by Underwriters who understand their complex services, and the risks inherent in them. In other words, an insurer who speaks their language.

Our deeply experienced team can interpret your clients' needs, and is your competitive advantage in serving Environmental Consultants and Engineers. Our appetite runs the range of exposure this class presents, including but not limited to Phase I to IV reports, remedial investigation, feasibility and design studies, tanks systems, project management, testing, lab analysis, surveying, air quality testing, regulatory consults and many more endeavours. Coverage can be tailored to fit with other important segments of an environmental risk's insurance program, such as standalone pollution or companion Commercial General Liability policies - all available thru SUM!

Market Security
